

# **IN FOCUS**

## **Cancer Survivors Survey**

We are seeking people who have received **chemotherapy that may cause nerve damage** to complete an online survey.

This survey will help us understand the **impact of side effects of chemotherapy** on the lives of cancer survivors.

Researchers at UNSW Australia are seeking volunteer research participants to learn about the impact of side effects of chemotherapy on the lives of Australian cancer survivors.

**Would the research project be a good fit for me?**

The study might be a good fit for you if you have ever received neurotoxic chemotherapy (i.e. chemotherapy that can cause damage to the nerves) as a treatment for cancer.

**What would happen if I took part in the research project?**

If you decide to take part you will complete an anonymous online survey. It should take about 30 minutes to complete

**Will I be paid to take part in the research project?**

There are no additional costs associated with participation in this research project, nor will you be paid.

If you would like to participate in the study please go to the following website:

**[www.infocusstudy.org.au/survey](http://www.infocusstudy.org.au/survey)**
